

**CALL FOR PAPERS – PQ 2018**  
**The Third International Workshop on Process Querying**  
**Sydney, Australia, September 10, 2018**  
([www.processquerying.com/pq2018/](http://www.processquerying.com/pq2018/))

## 3rd International Workshop on Process Querying (PQ 2018) Sydney, Australia | September 10, 2018

to be held in conjunction with the 16th international conference on  
Business Process Management (BPM 2018)

The Third International Workshop on Process Querying (PQ 2018) aims to provide a high quality forum for researchers and practitioners to exchange research findings and ideas on technologies and practices in the area of process querying. Process querying studies automated methods for the inquiry, manipulation, and update of models and data of observed and envisioned processes, as well as relationships thereof, with the ultimate goal of converting process-related information into decision making capabilities. Process querying research spans a range of topics from theoretical studies of algorithms and the limits of computability of process querying techniques to practical issues of implementing process querying technologies in software. Examples of practical problems tackled using process querying include process compliance, standardization, reuse, variance management, comparison, and monitoring.

### WORKSHOP TOPICS

The main topics relevant to the PQ workshop include, but are not limited to:

- ♦ Behavioral and structural methods for process querying
- ♦ Imperative and declarative process querying methods
- ♦ Exact and approximate process querying methods
- ♦ Expressiveness of process querying methods
- ♦ Decidability and complexity of process querying methods
- ♦ Process query languages and notations
- ♦ Indexing for fast process querying
- ♦ Empirical evaluation and validation of process querying methods
- ♦ Label management in process querying
- ♦ Information retrieval methods in process querying
- ♦ Process querying of big (process) data
- ♦ Meta-models and architectures for process querying
- ♦ Automatic management of process models, e.g., process model repair
- ♦ Automatic management of process model collections
- ♦ Event log querying
- ♦ Event stream querying
- ♦ Process performance querying
- ♦ Multi-perspective process querying methods, e.g., querying process resources, data, etc.
- ♦ Process querying and rich ontology annotations
- ♦ Applications of process querying methods for process compliance, standardization, reuse, etc.
- ♦ Experience reports from implementations of process querying tools
- ♦ Case studies in process querying

### SUBMISSION INSTRUCTIONS

Prospective authors are invited to submit papers for presentation in any of the areas listed above. The paper selection will be based upon the relevance of a paper to the main topics as well as upon its quality and potential to generate relevant discussion. Authors are requested to prepare submissions according to the format of the Lecture Notes in Business Information Processing (LNBIP) series by Springer (<http://www.springer.com/computer/lncs?SGWID=0-164-6-791344-0>). Submissions must be in English and must not exceed 12 pages (including figures, bibliography and appendices). Each paper should contain a short abstract, clarifying the relation of the paper with the main topics (preferably using the list of topics above), clearly state the problem being addressed, the goal of the work, the results achieved, and the relation to other work. Papers should be submitted electronically as a self-contained PDF file via submission system (<https://www.easychair.org/conferences/?conf=pq2018>). Submissions must be original contributions that have not been published previously, nor already submitted to other conferences or journals in parallel with this workshop.

## **PUBLICATION**

All workshop papers will be published by Springer as a post-workshop proceedings volume in the series Lecture Notes in Business Information Processing (LNBIP). These proceedings will be made available to all registered participants approximately four months after the workshop, while preliminary proceedings will be distributed during the workshop. For each accepted paper, at least one author must register for the workshop and present the paper.

## **KEY DATES**

- ♦ Submission deadline: 25 May 2018
- ♦ Notification deadline: 29 June 2018
- ♦ Camera-ready papers deadline: 13 July 2018
- ♦ Workshop: 10 September 2018

## **COMMITTEES**

### **ORGANIZERS**

**Artem Polyvyanyy**, Queensland University of Technology  
**Arthur ter Hofstede**, Queensland University of Technology  
**Claudio Di Ciccio**, Vienna University of Economics and Business

### **PROGRAM COMMITTEE**

**Agnes Koschmider**, Karlsruhe Institute of Technology  
**Ahmed Awad**, Cairo University  
**Artem Polyvyanyy**, Queensland University of Technology  
**Arthur ter Hofstede**, Queensland University of Technology  
**Boudewijn van Dongen**, Eindhoven University of Technology  
**Chun Ouyang**, Queensland University of Technology  
**Claudio Di Ciccio**, Vienna University of Economics and Business  
**David Knuplesch**, Ulm University  
**Dirk Fahland**, Eindhoven University of Technology  
**Fabrizio Maria Maggi**, University of Tartu  
**Gero Decker**, Signavio  
**Hagen Völzer**, IBM Research - Zurich  
**Hajo Reijers**, VU University Amsterdam  
**Henrik Leopold**, VU University Amsterdam

**Hyerim Bae**, Pusan National University  
**Jochen De Weerd**, Katholieke Universiteit Leuven  
**Jorge Munoz-Gama**, Pontifical Catholic University of Chile  
**Luciano García-Bañuelos**, University of Tartu  
**Manfred Reichert**, Ulm University  
**Marcello La Rosa**, University of Melbourne  
**Massimiliano de Leoni**, Eindhoven University of Technology  
**Matthias Weidlich**, Humboldt University of Berlin  
**Minseok Song**, Pohang University of Science and Technology  
**Remco Dijkman**, Eindhoven University of Technology  
**Seppe vanden Broucke**, Katholieke Universiteit Leuven  
**Stefan Schönig**, University of Bayreuth  
**Stefanie Rinderle-Ma**, University of Vienna  
**Wil van der Aalst**, RWTH Aachen University
